

Food in Eco Network – internationalization and global competitiveness of European SMEs in Food and Eco Logistics Sector

FOODNET

**Do you represent food or eco-logistics
cluster / business organization?**

**Are you interested in entering the
international marketplace?**

Join the Alliance!

FOODNET is an EU wide meta-cluster as a long term European Strategic Cluster Partnership-Going International (ESCP-4i) supporting clusters and business network organizations, their SMEs and other cluster members in global competition, collaborating for innovation, market-uptake, and marketing of competitive products, services and technologies in the field of food and eco-logistics.

FOODNET will address the needs in the area of cooperation and improving green behaviour in supply chain of food clusters and other industry clusters. To assure the quality and safety of food products an effective network oriented on long-term goals and supported by good logistics system will be created.
